	Is Literature drawn objective?	Yes	Good.
	Is Reference complete and appropriate?	Yes	Good
	Is Mythology Appropriate?	Yes	Base
	Is Analysis of Result/Observation/Findings done Correctly?	Yes	Good.
	Is Result Interpreted Properly (Tables and Figure appropriate)?	Yes	Yes
	conclusion	Yes	Good
	Is writing clear and concise?	Yes	Medium
Review Comments:	A. The issue of this study is indeed the case for current situation. Yet, there is little attention to current study identified problem to how existing training in such context is a failure. If the direction of the study is addressed that way, the discussion in this article will be quite thoughtful.
